

Our Promoting Positive Behaviour Policy

At Little Gillies we believe that children flourish best when they feel safe and secure and have their needs met by supportive practitioners who act as good role models, show them respect and value their individual personalities. Children are supported through co-regulation, where adults and children work together towards a common purpose, including finding ways to resolve upsets from stress in any domain and return to balance leading on to a path to self-regulation. The nursery actively promotes British values and encourages and praises positive, caring, and polite behaviour at all times and provides an environment where children learn to respect themselves, other people and their surroundings.

We implement the early year's curriculum supporting children to develop their personal, social, and emotional development. This involves helping children to understand their own feelings and others and beginning to regulate their behaviour. We support children to do this through working together with parents, having consistent approaches, structure, routine and age/stage appropriate boundaries. We help build confidence and self-esteem by valuing all children and giving lots of praise and encouragement.

To support positive behaviour in our setting we aim to:

- Recognise the individuality of all our children.
- Provide a warm, responsive relationship where children feel respected, comforted, and supported in times of stress, and confident that they are always cared for.
- Encourage self-regulation, consideration for each other, our surroundings and property.
- Encourage children to participate in a wide range of group activities to enable them to develop their social skills.
- Ensure that all staff act as positive role models for children.
- Encourage parents and other visitors to be positive role models.

7.1 Positive behaviour

- Work in partnership with parents.
- Praise children and acknowledge their positive actions and attitudes.
- Encourage all staff working with children to accept their responsibility for implementing the goals in this policy and to be consistent.
- Promote non-violence and encourage children to deal with conflict peacefully.
- Provide a key person system enabling staff to build a strong and positive relationship with children and their families.
- Provide activities and stories to help children learn about accepted behaviours, including opportunities for children to contribute to decisions about accepted behaviour where age/stage appropriate.
- Supporting and developing children's understanding of different feelings and emotions, self-regulation, and empathy as appropriate to stage of development. This includes using strategies and naming and talking about feelings and ways to manage them.
- Have a named person who has overall responsibility for promoting positive behaviour and behaviour support.

The named person for promoting and supporting behaviour the manager.

Sarah Beresford

It is their role to:

- Advise and support other staff.
- Keep up to date with legislation and research relating to promoting positive behaviour
- Support changes to policies and procedures in the nursery.
- Access relevant sources of expertise where required and act as a central information source for all involved.
- Attending regular external training events, and ensure all staff attend relevant in-house or external training for behaviour management. Keep a record of staff attendance at this training.

Our nursery rules are concerned with safety, care, and respect for each other. We keep the rules to a minimum and ensure that these are age and stage appropriate. We regularly involve children in the process of setting rules to encourage

7.1 Positive behaviour

cooperation and participation and ensure children gain understanding of the expectations of behaviour relevant to them as a unique child.

Children who behave inappropriately, for example, by physically abusing another child or adult, e.g. biting, or through verbal bullying, are helped to talk through their feelings and actions and apologise where appropriate. We make sure that the child who has been upset is comforted and the adult will confirm that the other child's behaviour is not acceptable. We always acknowledge when a child is feeling angry or upset and that it is the behaviour that is not acceptable, not the child.

Our promoting positive behaviour procedure is:

- We support all children to develop positive behaviour, and we make every effort to provide for their individual needs.
- We never use or threaten to use physical punishment/corporal punishment such as smacking or shaking or use or threaten any punishment that could adversely affect a child's well being.
- We only use physical intervention (where practitioners may use reasonable force to prevent children from injuring themselves or others or damaging property) or to manage a child's behaviour if necessary. We keep a record of any occasions where physical intervention is used and inform parents on the same day, or as reasonably practicable.
- We recognise that there may be times when children may have regular occasions where they lose control and may need individual techniques to restrain them. This will only be carried out by staff who have been appropriately trained to do so. Any restraints will only be done following recommended guidance and training and only with a signed agreement from parents on when to use it. We will complete an incident form following any restraints used and notify the parents.
- We do not single out children or humiliate them in any way. Where children are displaying challenging behaviour, they will, wherever possible, be distracted/re-directed to alternative activities. Discussions with children will take place as to why their behaviour was not acceptable, respecting their level of understanding and maturity.
- Staff do not raise their voices (other than to keep children safe)

7.1 Positive behaviour

- In any case of misbehaviour, we always make it clear to the child or children in question, that it is the behaviour and not the child that is unwelcome.
- We decide on strategies to support behaviour depending on the child's age, level of development and the circumstances surrounding the behaviour. This may involve asking the child to talk and think about what he/she has done. All staff support children in developing empathy and children will only be asked to apologise if they have developed strong empathy skills and have a good understanding of why saying sorry is appropriate.
- We inform parents if their child's behaviour is unkind to others or if their child has been upset. In all cases we deal with behaviour that challenges in nursery at the time. We may ask parents to meet with staff to discuss their child's behaviour, so that if there are any difficulties, we can work together to ensure consistency between their home and the nursery. In some cases, we may request additional advice and support from other professionals, such as an educational psychologist.
- We support children in developing non-aggressive strategies to enable them to express their feelings and emotions.
- We keep confidential records on any behaviour that challenges that has taken place. We inform parents and ask them to read and sign any incidents concerning their child.
- We support all children to develop positive behaviour, and we make every effort to provide for their individual needs.
- Through partnership with parents and formal observations, we make every effort to identify any behavioural concerns and the causes of that behaviour. From these observations and discussions, we will implement an individual behaviour modification plan where a child's behaviour involves aggressive actions towards other children and staff, for example hitting, kicking etc. The manager will complete risk assessments identifying any potential triggers or warning signs, always ensuring other children's and staff's safety. In these instances, we may remove a child from an area until they have calmed down.

We recognise that children need their own time and space and that it is not always appropriate to expect a child to share. We believe it is important to acknowledge each child's feelings and to help them understand how others might be feeling.

7.1 Positive behaviour

At Little Gillies, staff follow the procedure below to enable them to deal with behaviour that challenges:

- Staff are encouraged to ensure that all children feel safe, happy, and secure.
- Staff are encouraged to recognise that active physical aggression in the early years is part of the child's development and that it should be channelled in a positive way.
- Children are helped to understand that using aggression to get things is inappropriate and they will be encouraged to resolve problems in other ways.
- Our staff will intervene when they think a child is being bullied, however mild or harmless it may seem.
- Staff will initiate games and activities with children when they feel play has become /overly boisterous aggressive, both indoors and out
- We will ensure that this policy is available for staff and parents, and it will be actively publicised at least once a year to parents and staff.
- Staff and parents are also welcomed to review and comment on the policy and procedure.
- If any parent has a concern about their child, a member of staff will be available to discuss those concerns. Working together can ensure our children feel confident and secure in their environment, both at home and in the nursery
- All concerns will be treated in the strictest confidence.

Anti-bullying

We encourage children to recognise that bullying, fighting, hurting and discriminatory comments are not acceptable behaviour. We want children to recognise that certain actions are right and that others are wrong.

Bullying takes many forms. It can be physical, verbal, or emotional, but it is always a repeated behaviour that makes other people feel uncomfortable or threatened. We acknowledge that any form of bullying is unacceptable and will be dealt with immediately while recognising that physical aggression is part of children's development in their early years. Staff will intervene when they think a child is

7.1 Positive behaviour

being bullied, however mild or harmless it may seem and sensitively discuss any instance of bullying with the parents of all involved to look for a consistent resolution to the behaviour.

By positively promoting positive behaviour, valuing co-operation, and a caring attitude, we hope to ensure that children will develop a positive sense of self, have confidence in their own abilities, make good friendships, co-operate, and resolve conflicts peaceably. These will provide them with a secure platform for school and later life.

All policies and procedures are implemented, reviewed, and updated on an annual basis or in line with any changes to local and national guidance/legislation in conjunction with the registered person.
