

Safety Checks Policy

At little Gillies we take reasonable steps to ensure the safety of children, staff and others on the premises including conducting safety checks on a regular basis in accordance with the timescales set out in the nursery checklists table at the end of this policy.

These include daily safety checks of the premises, indoors and outdoors, and all equipment and resources before the children access any of the areas. The checks are recorded and show any issues and solutions.

All staff are trained in health and safety to raise awareness. Staff know how to recognise potential hazards including near misses in the nursery environment and always monitor safety.

Risk assessments.

Risk assessments document the hazard, who could be harmed, existing controls, the seriousness of the risk/injury, any further action needed to control the risk, who is responsible for what action, when/how often will the action be undertaken, and how will this be monitored and checked and by whom.

The nursery carries out written risk assessments at least annually. These are regularly reviewed and cover potential risks to children, staff, and visitors at the nursery. When circumstances change in the nursery; we review our current risk assessment or conduct a new risk assessment dependent on the nature of this change.

All outings away from the nursery are individually risk assessed.

Electrical equipment

- All electrical cables are kept out of the reach of children wherever possible and shielded by furniture where they need to be at floor level
- Electrical sockets are all risk assessed and any appropriate safety measures are in place to ensure the safety of the children.

Dangerous substances

All dangerous substances including chemicals are kept in locked areas out of children's reach. All substances are kept in their original containers with their original labels attached. Safety Data Sheets (Control of Substances Hazardous to Health (COSHH)) and risk assessments are kept for all substances and the appropriate personal protection taken and used e.g. gloves, apron, and goggles.

Hot drinks and food

Hot drinks must only be consumed in the staff room. No bottled/canned drinks, sweets or crisps are to be kept or consumed in the nursery rooms or outside.

Room temperatures

- Staff should be aware of room temperatures in the nursery and should ensure that they are always suitable and recorded on the appropriate sheet.
- Staff must always be aware of the dangers of babies and young children being too warm or too cold
- Temperatures should not fall below 18°C in the baby rooms and 16°C in all other areas
- Where fans are being used to cool rooms, great care must be taken regarding their positioning

Water supplies

- A fresh water drinking supply is available and accessible to all children, staff, and visitors
- All hot water taps accessible to children are thermostatically controlled to ensure that the temperature of the water does not exceed 40°C

Gas appliances

- All gas appliances are checked annually by a registered Gas Safety Register engineer
- Carbon monoxide detectors are fitted

8.4 safety Checks

All policies and procedures are implemented, reviewed, and updated on an annual basis or in line with any changes to local and national guidance/legislation in conjunction with the registered person.

This policy was adopted at a meeting of Little Gillies
